

# International Lifeguard Training Program™ (ILTP™)

ILTP™

ILTP™

An Ellis & Associates Program that meets the water safety needs of all clients. **ILTP™** is retained by 90% of all U.S. Waterparks, as well as the major UAE Waterparks (Aquaventure, Wild Wadi and Yas Waterworld) and major international Hotel chains such as Jumeirah and Atlantis.

- Empower your lifeguard team with the industry's best skills and professionalism
- Assure that your lifeguards are trained with state of the industry skills and procedures
- Equip your lifeguards with state of the art rescue technology
- Ensure that your lifeguards receive the most comprehensive lifeguard training program available today

## What makes ILTP™ unique?

Realistic scenarios and simulations. We believe that lifeguard rescue skills are best learned in the water, under the watchful eye of an ILTP™ Instructor. Students work with mannequins to gain understanding of the dynamics of the human body. However, once students gain competency in basic skills, they apply them to real-life simulated incidents. We teach based on realistic scenarios with real people role-playing as Guests in Distress (GID).

Experiential Training Concept: Experiential education is a process of learning through action. The ILTP™ Program applies the philosophy and methodology in which ILTP™ Instructors purposefully engage with lifeguard candidates in direct experience and focused reflection in order to increase knowledge, develop skills and clarify values.

'Make it Work' philosophy: Our curriculum and philosophy stress that 'textbook-perfect' rescues seldom occur in real life. What is more important is for lifeguards to problem-solve to overcome adverse situations that might arise during a rescue effort.

Course Length: 22-24 hours | For costs on our courses please call Steve on +971 50 245 9146
